Statement

The College, in partnership with the parents, has a responsibility to educate students about nutrition. As part of the school environment, the Canteen is in a unique position to make a positive, worthwhile contribution to student welfare.

Rationale

The Canteen is a focal point for nutrition education. It should reinforce the healthy practices students learn at home and in the classroom.

Guidelines

1. The Canteen is a non-profit operation provided by the school as a service to the school community.

2. The Canteen provides a variety of nutritious and attractively presented foods and drinks.

3. The Canteen reinforces, in a practical way, classroom nutrition education in supporting the objectives of Food Studies and Health curriculums operating in the school.

4. The Canteen maintains high standards of hygiene in handling, preparing, serving and storage of food.

5. The Canteen encourages parental involvement through membership of a Canteen Committee or as interested parents assisting directly with the work of the Canteen.

6. The Canteen encourages environmentally sound practices in dealing with packaging and disposal of waste.
