YEAR 7 ORIENTATION DAY 2016

The day began and gradually our new, excited, and a little apprehensive students gathered to begin their high-school journey. We saw a sea of eager faces ready to find out who was in their class, which teachers did they have and what new friends they would make. It was a day full of new experiences as our Year 7s and teachers gradually began to get to know each other. Our Peer Support Leaders and School Captains also welcomed our new students on the day, by the end of which we saw many exhausted but happy faces.

Year 7 staff would like to send thanks to all of our wonderful Peer Support Leaders who aided in making our school that little less daunting for our new cohort and who have continued to reach out and develop the connections that they began on Orientation Day.

So now that year has begun, and some new friendships have been made, I encourage all Year 7 to continue to engage with the MacKillop community in the way they have already begun.

I look forward to camp and to seeing the many successes that Year 7 2016 will enjoy.

Mrs Olivia Stephen

Year 7 Co-ordinator

We had mixed emotions about starting out at a brand new school. All the Year 7s moved into the gym and took their seats. We were then introduced to our teachers and our homerooms. Everyone was nervous to see which Home Room they would be in because we didn’t know if we would be with our friends. We moved with our new class to our new classroom. Throughout the day we played team building activities with our Peer Support leaders to help us get to know our team mates. Some of the activities we did were Postman Pat, Soccer and Dodgeball. A lunchtime we had a BBQ and it was tasty 😊 At the end of the day we were very excited to continue our journey at High School.
